SCIENTIFIC

- Bevelled grip ring ensures lid stays in position when dish is being handled and makes it easier to grasp and manage with a gloved hand
- Proprietary notch design maximises ventilation while maintaining sterility, restricts the movement of the lid ensuring secure lid to dish fitting and increases the physical strength of the dish
- Raised outer edge on dish lid allows stable stacking during transportation of cell cultures
- Orientation marks on dish bottom simplify locating of cells under the microscope
- Writing area improves traceability of cell cultures
- Resealable packaging promotes cleanliness of opened packs
- Sterile
