**Thermo Scientific™ Nalgene™ Non-Phthalate  
 PVC Tubing**
**Thermo**  
 SCIENTIFIC

- Manufactured from the highest-grade resin materials, free from ortho-phthalate DEHP plasticisers
- Resists hardening and discoloration from a wide range of chemicals and does not impart odour or taste
- Ideal for a wide range of non-medical, general lab, research and pharmaceutical applications
- Equivalent to Tygon™ E-3603 tubing
- Marked with I.D. and regulatory compliance as well as at 10cm intervals for easy identification and measurement
- Durometer hardness is Shore A, 60
- Slips easily over glass and plastic fittings; grips securely
- Autoclavable
- Transparent

**Supplied in 25m lengths**
