

Lovibond® Comparator 2000+

A versatile colorimetric system for water analysis. Comfortable handling, no compromise on accuracy and reproducibility: The Comparator 2000+ can be used for many applications; swimming pools, research or drinking water treatment are just a few examples.

- More than 400 colour discs and numerous reagents are available
- Compensation for coloured and turbid samples
- Guaranteed constancy of the coloured glass standards
- Integrated prism visually brings the glass standards of the colour disc and the coloured sample into view
