

## FlyStuff Drosophila Closures Continued

## Rayon and Cotton

Thorough machine processing provides consistent uniformity of shape and size for maximum efficacy in vial plugging. These top quality balls are an effective barrier to mite infestation. Pharmaceutical grade cotton and rayon coil rope can be pulled or cut apart in any length to effectively plug any size vial or bottle. These coils conform to USP (current edition) Purified rayon and purified cotton, respectively.

Code	Alt Ref	Description	For use with	Pack	Price
FLY1028	51-102W	Cotton balls	Wide tubes	2000	£156.00
FLY1200	51-101	Cotton balls	Narrow tubes	2000	£101.00
FLY1054	51-102B	Cotton balls	Stock bottles	2000	£168.00
FLY1272	51-102WR	Rayon balls	Wide tubes	2000	£375.00
FLY1092	51-100	Rayon balls	Narrow tubes	2000	£134.00
FLY1270	51-102BR	Rayon balls	Stock bottles	1000	£542.00
FLY1276	52-101	Cotton coil rope	Any - cut to size	7.7kg	£419.00
FLY1274	52-100	Rayon coil rope	Any - cut to size	9.0kg	£390.00
FLY1278	53-100	Cheesecloth, grade 50	Any - cut to size	64m	£130.00

## Geneseal™

A revolutionary adhesive film developed specifically to optimise fly food preparation and preservation. Plugging vials is the most time consuming, labour-intensive task performed in a fly kitchen and it's no longer necessary! A sheet of Geneseal™ is applied to a tray of 100 vials in just seconds. Vials sealed with Geneseal™ adhesive film™ stay moist up to 3 times longer than plugged vials.

## Supplied in a roll of 192m

Code	Alt Ref	For use with	Price
FLY1210	59-166	Standard 10 x 10 narrow vial tray	£230.00
FLY1066	59-165	Standard 10 x 10 wide vial tray	£207.00

## Droso-Plugs®

The densest foam closures available to fly labs. They are reusable (washable and autoclavable), and the easiest closure ever available (insert, remove, gas).

Code	Alt Ref	For use with	Ø, mm	Pack	Price
FLY1202	59-194	Glass bottles	38	1536	£504.00
FLY1094	59-194P	Plastic bottles	38	2560	£1144.00
FLY1000	59-200	Narrow vials	25	6760	£617.00
FLY1196	59-201	Wide vials	28	4840	£753.00

## Press-n-Seal

Sealable plastic wrap to "plug" vials in the fly kitchen, leaving the real plugging to be done when flies are in the vials. The application of this sealable plastic wrap not only saves time in the food preparation facility and the lab, but significantly increases the shelf life of prepared fly food.

Code	Alt Ref	Dims, mm x m	Price
FLY1056	88-142	300 x 43.4	£36.80
