

## Epredia™ ClearVue™ Coverslipper

epredia | Authorized Distributor

Boost speed and accuracy in busy laboratories by automating the coverslipping workload. Simply place a basket of slides onto the load rail and close the door - the ClearVue™ Coverslipper does all the rest.

- Accepts slides directly from the Thermo Scientific™ Varistain™ Gemini ES and Varistain™ 24-4, Sakura™ DRS2000 and Leica™ Auto-Stainer
- Permits loading of slide baskets from any of these stainers in a mix-or-match fashion without requiring operator adjustments to the coverslipper
- Automatically recognises different types of slide preparations and delivers the correct amount of mountant for coverslipping each
- Handles both histology and cytology samples simultaneously without user interaction while still delivering right amount of mountant
- Handles up to 11 slide baskets at the same time with load-on-demand capabilities, accepts baskets loaded one at a time or up to five baskets loaded together
- Recognises the position of each slide in a basket, removes each slide with a set of slide-grippers and returns every slide back, while maintaining slide positioning
- Intuitive user interface features a touchscreen panel
- Software monitors the type of slide preparation, size and number of slips dispensed and the number of baskets waiting to be coverslipped
- Supplied with user guide, 2 x ClearVue™ coverslip hoppers, 24 x 50mm, #1.5–1000 slips, 3 x ClearVue™ slide baskets (Gemini-compatible) with black sliders, 2 x mountant purge trays, ventilation filter, 2 x soft hair brushes and 3 x suction cups
