Brady BMP®71 Label Printers

A portable label printer that can print on more than 30 different types of label ensuring that that you can use the right label material for your application. A full QWERTY keyboard allows two handed typing whilst a large full colour screen enables the whole label to be viewed at once helping compose the label easily.

- Prints faster than any other printer in its class (38mm/sec)
- Full QWERTY keyboard - use both your hands to type your label instead of one finger and save time!
- Works with a rechargeable NiMH battery or AC power
- Enlarged screen enables to see the whole label at once
- For use with continuous or die-cut labels
- Predefined application templates and wizards save time and makes it easy to print the exact label you need
- Monocolour
- Resolution: 300dpi
