BRAND PD-Tips II

The PD-Tips II dispenser tips for efficient, step-by-step dispensing enhance the proven features of the classic BRAND PD-Tips. Thanks to patented size coding, HandyStep® touch and HandyStep® electronic from BRAND automatically detect the tip volume. The tips are also compatible with all other instruments of the HandyStep® family and with repetitive pipettes from other manufacturers. The positive displacement principle enables precision work, even with viscous media or media with high vapour pressure.

Non Sterile

Supplied in packs of 100

Code	Alt Ref	Volume, mL	Price
