SUPPLIES

# Chromatography Standards

- Largest Producer Worldwide of Reference Materials, Accredited Physical and Chemical Standards, Reagents and Control Solutions
- Gas Chromatography (GC) and Liquid Chromatography (HPLC) Standards Available
- Supplied as Ready to Use Solutions or High Purity Neat Formats, for
  - Calibration (Internal, External and Surrogate)
  - Control
  - Validation
  - Verification
  - Compliance
- For use with any GC, GC-MS, HPLC or LC-MS Instrument
- Extensive Range of Single Compound Standards
- Extensive range of Multi Compound and Customer Specified Mixes

*Specific Chromatography Standards are available on our web shop [www.reagecon.com](http://www.reagecon.com) for sectors such as Food, Environmental and Petrochemical and are used for the detection of:-*

- |  |                |  |
|--|----------------|--|
| • Volatile Organic Compounds (VOC)       | • Pesticides   | • Fatty Acid Methyl Esters (FAME)        |
| • Polycyclic Aromatic Hydrocarbons (PAH) | • Phenolics    | • Fatty Acid Ethyl Esters (FAEE)         |
| • Polychlorinated Biphenyls (PCB)        | • PIANO & PONA | • Semi Volatile Organic Compounds (SVOC) |
| • Polybrominated Biphenyls (PBB)         | • Oxygenates   | • Azo Dyes                               |
| • Polybrominated Diphenyl Ethers (PBDE)  | • Nitrosamines | • Phthalates                             |
| and other Flame Retardant Standards      |                | • Petrochemical Standards                |
