

Material description: COPPER (II) SULPHATE 5H₂O A.R.

CAS No: 7758-99-8

Supplied as: Product code Description
CHE1708 COPPER (II) SULPHATE 5H₂O A.R. 500g.

Specification

| Parameter | Units | Minimum value | Maximum value | Typical value | Notes |
|-----------|-------|---------------|---------------|---------------|-------|
| Purity | % | 99.5 | 102.0 | | |
| Cadmium | ppm | | 5 | | |
| Iron | ppm | | 150 | | |
| Lead | ppm | | 125.000 | | |
| Nickel | ppm | | 100 | | |
| Zinc | ppm | | 150.00 | | |
| Arsenic | ppm | | 10 | | |
| Cobalt | ppm | | 25 | | |

Revision date: 16/03/2020

Issue date: 12/05/2022

Specification correct at time of issue but is subject to change without notice. It is the users responsibility to verify the material is suitable for the required application.
